

G170ETN02.001 / G170ETN02.1 ECN

(Common mode choke / Variable Resistor)

- PGDBC0
- 2023.01.18

AUO Display Plus Confidential For EC

ECN Notice

- **Purpose:**

- MURATA Beads DLP11SN161SL2L is going to EOL, ADP will replace DLP11SN161SL2L with ATCM1210U-161T for this models.
- TMC3K3BB10KΩ-TR (VR) fewer models are using it now, for future smooth supply, ADP will replace TMC3K3BB10KΩ-TR(VR) with DS961RD1(DVCOM) for this models.

- **Changes:**

- Common mode choke change from MURATA Beads DLP11SN161SL2L to Arlitech ATCM1210U-161T.
- Variable Resistor change from TAIWAN NOBLE TMC3K3BB10KΩ-TR (VR) to GMT DS961RD1(DVCOM)

- **Change Items:**

- Common mode choke , Variable Resistor
- PCBA will re-layout
